Family Self-Reporting Their Promotive/Protective Factors Have Been Enhanced

Note: For an individual to be counted in the chart below, they must have complete pre/post survey responses. If an individual has not taken the post survey, they are not included in the chart below. Pre/Post Surveys rolled out in March, so it is possible that you will not have data.

62

Number of help-seekers who reported an improvement in their promotive/protective ⓘ

Distribution of Promotive/Protective Factors Improved
